

TABLE OF CONTENTS

Table of Contents	i
List of Figures	ix
List of Tables	xv
List of Acronyms and Abbreviations	xlv
Chemicals and Units of Measure	lii
Metric Conversion Chart and Metric Prefixes	lv
 Appendix A	
Nonproliferation Policy and Joint Statement	A-1
A.1 Nonproliferation and Export Control Policy Fact Sheet	A-1
A.2 Nonproliferation of Weapons of Mass Destruction and the Means of Their Delivery	A-4
 Appendix B	
Building and Facility Specifications	B-1
B.1 Storage Facilities	B-1
B.2 Facilities Common to Multiple Plutonium Disposition Alternatives	B-18
B.3 Plutonium Disposition Facilities	B-20
 Appendix C	
Materials, Resources, and Employment Requirements for Construction and Operations	C-1
C.1 Construction Requirements	C-1
C.1.1 Materials/Resources Required	C-1
C.1.1.1 Long-Term Storage Alternatives	C-1
C.1.1.2 Activities Common to Multiple Plutonium Disposition Alternatives	C-6
C.1.1.3 Plutonium Disposition Alternatives	C-8
C.1.2 Construction Worker Requirements	C-12
C.1.2.1 Long-Term Storage Alternatives	C-12
C.1.2.2 Activities Common to Multiple Plutonium Disposition Alternatives	C-17
C.1.2.3 Plutonium Disposition Alternatives	C-18
C.2 Requirements During Operations	C-20
C.2.1 Utilities Required	C-20
C.2.1.1 Long-Term Storage Alternatives	C-20
C.2.1.2 Activities Common to Multiple Plutonium Disposition Alternatives	C-22
C.2.1.3 Plutonium Disposition Alternatives	C-23
C.2.2 Chemicals Utilized	C-26
C.2.2.1 Long-Term Storage Alternatives	C-26
C.2.2.2 Activities Common to Multiple Plutonium Disposition Alternatives	C-34
C.2.2.3 Plutonium Disposition Alternatives	C-35
C.2.3 Personnel Requirements	C-39
C.2.3.1 Long-Term Storage Alternatives	C-39
C.2.3.2 Activities Common to Multiple Plutonium Disposition Alternatives	C-41
C.2.3.3 Plutonium Disposition Alternatives	C-42

Appendix D		
Water Usage		D-1
D.1 Storage Alternatives		D-1
D.2 Facilities Common to Multiple Plutonium Disposition Alternatives		D-21
D.3 Disposition Alternatives		D-24
Appendix E		
Waste Management		E-1
E.1 Overview		E-1
E.1.1 Waste Categories		E-1
E.1.2 Applicable Federal Statutes and Department of Energy Orders		E-2
E.1.3 Waste Minimization and Pollution Prevention		E-6
E.1.4 Waste Treatment, Storage, and Disposal		E-6
E.1.5 Transportation		E-10
E.1.6 Facility Transition Management		E-10
E.2 Waste Management Activities		E-12
E.2.1 Hanford Site		E-12
E.2.2 Nevada Test Site		E-29
E.2.3 Idaho National Engineering Laboratory		E-33
E.2.4 Pantex Plant		E-49
E.2.5 Oak Ridge Reservation		E-63
E.2.6 Savannah River Site		E-97
E.3 Project-Specific Waste Management Activities		E-113
E.3.1 Fissile Material Long-Term Storage Facilities		E-113
E.3.1.1 Upgrade Alternative		E-116
E.3.1.2 Consolidation Alternative		E-128
E.3.1.3 Collocation Alternative		E-139
E.3.2 Facilities Common to Multiple Plutonium Disposition Alternatives		E-151
E.3.2.1 Pit Disassembly/Conversion Facility		E-151
E.3.2.2 Plutonium Conversion Facility		E-157
E.3.2.3 Generic Mixed Oxide Fuel Fabrication Facility		E-162
E.3.3 Facilities to Support Final Disposition of Plutonium		E-167
E.3.3.1 Direct Disposition Alternative—Deep Borehole Complex		E-167
E.3.3.2 Immobilized Disposition Alternative—Deep Borehole Complex		E-171
E.3.3.3 Immobilized Disposition Alternative—Ceramic Immobilization Facility	E-175	
E.3.3.4 Vitrification Alternative		E-179
E.3.3.5 Ceramic Immobilization Alternative		E-184
E.3.3.6 Electrometallurgical Treatment Alternative (Glass-Bonded Zeolite)	E-188	
E.3.3.7 Evolutionary Light Water Reactor Alternative		E-192
Appendix F		
Air Quality and Noise		F-1
F.1 Air Quality		F-1
F.1.1 Methodology and Models		F-1
F.1.2 Supporting Data		F-2
F.1.2.1 Overview		F-2
F.1.2.2 Hanford Site		F-2
F.1.2.3 Nevada Test Site		F-6
F.1.2.4 Idaho National Engineering Laboratory		F-8
F.1.2.5 Pantex Plant		F-11
F.1.2.6 Oak Ridge Reservation		F-13

F.1.2.7	Savannah River Site	F-16
F.1.2.8	Rocky Flats Environmental Technology Site	F-17
F.1.2.9	Los Alamos National Laboratory	F-19
F.1.3	Air Pollutant Emissions	F-23
F.2	Noise	F-31
F.2.1	Hanford Site	F-31
F.2.2	Nevada Test Site	F-32
F.2.3	Idaho National Engineering Laboratory	F-32
F.2.4	Pantex Plant	F-32
F.2.5	Oak Ridge Reservation	F-32
F.2.6	Savannah River Site	F-33
F.2.7	Rocky Flats Environmental Technology Site	F-33
F.2.8	Los Alamos National Laboratory	F-33

Appendix G Intersite Transportation G-1

G.1	Transportation Risk Analysis Methodology	G-1
G.1.1	Truck and Rail Transportation Risk	G-1
G.1.2	Risk Associated With Port Handling and Global Commons for European Mixed Oxide Fuel Fabrication	G-3
G.1.2.1	Port Transit and Intermodal Handling Analysis (Accident-Free Conditions)	G-3
G.1.2.2	Port Transit and Intermodal Handling Analysis (Accident Conditions)	G-3
G.1.2.3	Modal Considerations	G-4
G.1.2.4	Port Handling Impacts	G-5
G.1.2.5	Effects on the Global Commons	G-6
G.1.2.6	Security Considerations in the Global Commons, and at European MOX Facilities	G-7
G.2	Historical Intersite Transportation Shipment Data	G-8
G.3	Highway distance	G-8
G.4	Transportation Equipment	G-8
G.5	6M, Type B Radioactive Material Shipment Packaging Test Sequence	G-26
G.6	Safe Secure Transport	G-26

Appendix H High-Level Waste Forms Comparative Analysis H-1

H.1	Methodology	H-1
H.2	Glass Form With Radionuclides	H-1
H.2.1	Assumptions	H-2
H.2.2	Characteristics	H-2
H.2.3	Comparative Analysis	H-2
H.3	Ceramic Immobilized Forms with Radionuclides	H-4
H.3.1	Assumptions	H-4
H.3.2	Characteristics	H-6
H.3.3	Comparative Analysis	H-6
H.4	Boiling Water Reactor—Mixed Oxide Burning Reactor Spent Nuclear Fuel Form	H-7
H.4.1	Assumptions	H-7
H.4.2	Characteristics	H-8
H.4.3	Comparative Analysis	H-8
H.5	Pressurized Water Reactor—Mixed Oxide Burning Reactor Spent Nuclear Fuel Form	H-9

H.5.1	Assumptions	H-9
H.5.2	Characteristics	H-10
H.5.3	Comparative Analysis	H-10
H.6	Glass-Bonded Zeolite Form	H-10
H.6.1	Assumptions	H-10
H.6.2	Characteristics	H-11
H.6.3	Comparative Analysis	H-11
Appendix I		
Changes in Canadian DeuteriumUranium Reactor Operations		I-1
Appendix J		
Applicable Laws, Regulations, and Other Requirements		J-1
Appendix K		
Biological Resources		K-1
Appendix L		
Socioeconomics		L-1
L.1	Introduction	L-1
Appendix M		
Health and Safety		M-1
M.1	Introduction	M-1
M.2	Radiological Impacts to Human Health During Normal Operations	M-1
M.2.1	Background	M-1
M.2.1.1	Nature of Radiation and Its Effects on Humans	M-1
M.2.1.2	Health Effects	M-5
M.2.2	Methodology for Estimating Radiological Impacts of Normal Operation	M-8
M.2.2.1	GENII Computer Code	M-8
M.2.2.2	Data and Assumptions	M-9
M.2.2.3	Health Effects Calculations	M-11
M.2.3	Storage and Disposition Facilities Information	M-15
M.2.3.1	Radiological Releases to the Environment	M-15
M.2.3.2	Radiological Impacts to In-Plant Workers	M-16
M.2.4	Radiological Impacts at Hanford Site	M-22
M.2.4.1	No Action	M-22
M.2.4.2	Storage and Disposition	M-30
M.2.5	Radiological Impacts at Nevada Test Site	M-32
M.2.5.1	No Action	M-38
M.2.5.2	Storage and Disposition	M-38
M.2.6	Radiological Impacts at Idaho National Engineering Laboratory	M-39
M.2.6.1	No Action	M-47
M.2.6.2	Storage and Disposition	M-51
M.2.7	Radiological Impacts at Pantex Plant	M-52
M.2.7.1	No Action	M-58
M.2.7.2	Storage and Disposition	M-58
M.2.8	Radiological Impacts at Oak Ridge Reservation	M-60
M.2.8.1	No Action	M-74
M.2.8.2	Storage and Disposition	M-76

M.2.9	Radiological Impacts at Savannah River Site	M-78
M.2.9.1	No Action	M-89
M.2.9.2	Storage and Disposition	M-94
M.2.10	Radiological Impact at Rocky Flats Environmental Technology Site	M-95
M.2.11	Radiological Impact at Los Alamos National Laboratory	M-95
M.2.12	Deep Borehole Disposition Generic Site	M-95
M.2.13	Generic Mixed Oxide Fuel Fabrication Site	M-95
M.2.14	Existing Light-Water Reactor Generic Site	M-95
M.2.15	Partially Completed Reactor Generic Site	M-95
M.3	Hazardous Chemical Impacts to Human Health	M-96
M.3.1	Background	M-96
M.3.2	Chemical Toxicity Profiles	M-98
M.3.3	Regulated Exposure Limits	M-119
M.3.4	Hazardous Chemical Risk/Effects Calculations	M-138
M.4	Human Health Studies: Epidemiology	M-221
M.4.1	Background	M-221
M.4.1.1	Study Designs	M-221
M.4.1.2	Definitions	M-222
M.4.2	Hanford Site	M-224
M.4.3	Nevada Test Site	M-230
M.4.4	Idaho National Engineering Laboratory	M-233
M.4.5	Pantex Plant	M-234
M.4.6	Oak Ridge Reservation	M-235
M.4.7	Savannah River Site	M-242
M.4.8	Rocky Flats Environmental Technology Site	M-243
M.4.9	Los Alamos National Laboratory	M-248
M.5	Facility Accidents	M-251
M.5.1	Evaluation Methodologies and Assumptions	M-251
M.5.1.1	Introduction	M-251
M.5.1.1.1	Risk	M-252
M.5.1.1.2	Uncertainties and Conservatism	M-252
M.5.1.2	Safety Design Process	M-253
M.5.1.3	Analysis Methodology	M-254
M.5.1.3.1	Introduction	M-254
M.5.1.3.2	MACCS Overview	M-254
M.5.1.3.3	Methodology and Techniques	M-255
M.5.1.3.4	Isotopic Spectra Used in the Storage and Disposition Accident Analyses	M-256
M.5.2	Long-Term Storage Alternatives	M-258
M.5.2.1	Consolidation of Plutonium Alternative	M-258
M.5.2.1.1	Accident Scenarios and Source Terms	M-258
M.5.2.1.2	Accident Impacts	M-262
M.5.2.2	Collocation of Plutonium and Highly Enriched Uranium Alternatives	M-267
M.5.2.2.1	Accident Scenarios and Source Terms	M-267
M.5.2.2.2	Accident Impacts	M-270
M.5.2.3	Upgrade of Existing Interim Storage Facilities at Hanford Site	M-277
M.5.2.4	Upgrade of Existing Interim Storage Facilities at Idaho National Engineering Laboratory	M-278
M.5.2.4.1	Accident Scenarios and Source Terms	M-278
M.5.2.4.2	Accident Impacts	M-283

M.5.2.5	Upgrade or Consolidation of Existing Interim Storage Facilities at Pantex Plant	M-285
M.5.2.5.1	Accident Scenarios and Source Terms	M-285
M.5.2.5.2	Accident Impacts	M-292
M.5.2.5.3	Aircraft Crash	M-292
M.5.2.6	Upgrade of Existing Interim Storage Facilities at Oak Ridge Reservation	M-296
M.5.2.7	Upgrade of Existing Storage Facilities at Savannah River Site	M-297
M.5.2.8	Nevada Test Site Storage Facility	M-297
M.5.2.8.1	Accident Scenarios and Source Terms	M-298
M.5.2.8.2	Accident Impacts	M-302
M.5.3	Disposition Alternatives	M-304
M.5.3.1	Pit Disassembly/Conversion Facility	M-304
M.5.3.1.1	Accident Scenarios and Source Terms	M-304
M.5.3.1.2	Accident Impacts	M-308
M.5.3.2	Mixed Oxide Fuel Fabrication Facility	M-315
M.5.3.2.1	Accident Scenarios and Source Terms	M-315
M.5.3.2.2	Accident Impacts	M-319
M.5.3.3	Direct Disposition Alternative for a Deep Borehole Complex	M-326
M.5.3.3.1	Accident Scenarios and Source Terms	M-326
M.5.3.3.2	Accident Impacts	M-332
M.5.3.4	Immobilized Disposition Alternative for a Deep Borehole Complex	M-334
M.5.3.4.1	Accident Scenarios and Source Terms	M-334
M.5.3.4.2	Accident Impacts	M-341
M.5.3.5	Vitrification Alternative	M-344
M.5.3.5.1	Accident Scenarios and Source Terms	M-344
M.5.3.5.2	Accident Impacts	M-348
M.5.3.6	Ceramic Immobilization Alternative	M-355
M.5.3.6.1	Accident Scenarios and Source Terms	M-355
M.5.3.6.2	Accident Impacts	M-361
M.5.3.7	Ceramic Immobilization Facility for Immobilized Disposition Alternative	M-368
M.5.3.7.1	Accident Scenarios and Source Terms	M-368
M.5.3.7.2	Accident Impacts	M-374
M.5.3.8	Evolutionary Light Water Reactor	M-381
M.5.3.8.1	Accident Scenarios and Source Terms	M-381
M.5.3.8.2	Accident Impacts	M-384
M.5.3.9	Plutonium Conversion	M-391
M.5.3.9.1	Accident Scenarios and Source Terms	M-391
M.5.3.9.2	Accident Impacts	M-395
M.5.3.10	Existing Commercial and Partially Completed Light Water Reactors	M-402
M.5.3.11	Contribution of Americium, Curium, and Plutonium to Reactor Accident Consequences	M-407

Appendix N

Multipurpose Reactor	N-1	
N.1	Background	N-1
N.2	New Multipurpose Reactors	N-2
N.3	Advanced Light Water Reactor	N-3
N.4	Modular Helium Reactor and Modular High Temperature Gas-Cooled Reactor	N-3

N.5	Cost Comparisons	N-4
N.5.1	Advanced Light Water Reactor Costs	N-4
N.5.2	Modular Helium Reactor Costs	N-6
N.6	Fast Flux Test Facility	N-7
N.7	Summary	N-8

Appendix O

	Can-in-Canister Variants	O-1
O.1	Introduction	O-1
O.2	Can-in-Canister Concept at Savannah River Site	O-1
O.3	Vitrification Can-in-Canister Variant	O-2
O.4	Ceramic Can-in-Canister Variant	O-8
O.5	Repository Acceptance	O-13
O.6	Tests and Demonstrations	O-14

Appendix P

	Manzano Storage Facility	P-1
P.1	Manzano Weapons Storage Area	P-2
P.2	Affected Environment and Environmental Impacts	P-2
P.2.1	Land Resources	P-2
P.2.2	Site Infrastructure	P-2
P.2.3	Air Quality and Noise	P-5
P.2.3.1	Air Quality Affected Environment	P-5
P.2.3.2	Air Quality Environmental Impacts	P-5
P.2.3.3	General Conformity Determination	P-6
P.2.3.4	Noise	P-7
P.2.4	Water Resources	P-7
P.2.5	Geology and Soils	P-7
P.2.6	Biotic Resources	P-7
P.2.7	Cultural Resources	P-7
P.2.8	Socioeconomic Resources	P-8
P.2.9	Occupational and Public Health	P-8
P.2.9.1	Affected Environment	P-8
P.2.9.2	Environmental Impacts	P-9
P.2.9.3	Aircraft Accidents	P-12
P.2.10	Waste Management	P-13
P.2.11	Intrasite Transportation	P-13
P.2.12	Environmental Justice	P-15
P.2.12.1	Affected Environment	P-15
P.2.12.2	Environmental Impacts	P-17

Appendix Q

	Storage of Rocky Flats Environmental Technology Site Plutonium Pits at Pantex Plant	Q-1
Q.1	Introduction	Q-1
Q.2	Pit Transfer and Storage	Q-1
Q.3	Zone 4 West Staging Operations	Q-2
Q.4	Radiological Exposure from Zone 4 Storage	Q-2
Q.5	Other Impacts from Zone 4 storage	Q-4

Appendix R

	Aircraft Crash Accident at Pantex Plant.....	R-1
--	---	-----

Table M.3.4–62	Risk Assessments From Exposure to Hazardous Chemicals at Nevada Test Site—Mixed Oxide Fuel Fabrication Facility	M-203
Table M.3.4–63	Risk Assessments From Exposure to Hazardous Chemicals at Idaho National Engineering Laboratory—Mixed Oxide Fuel Fabrication Facility	M-204
Table M.3.4–64	Risk Assessments From Exposure to Hazardous Chemicals at Pantex Plant—Mixed Oxide Fuel Fabrication Facility	M-205
Table M.3.4–65	Risk Assessments From Exposure to Hazardous Chemicals at Oak Ridge Reservation—Mixed Oxide Fuel Fabrication Facility	M-206
Table M.3.4–66	Risk Assessments From Exposure to Hazardous Chemicals at Savannah River Site—Mixed Oxide Fuel Fabrication Facility	M-207
Table M.3.4–67	Risk Assessments From Exposure to Hazardous Chemicals at Generic Site—Mixed Oxide Fuel Fabrication Facility	M-208
Table M.3.4–68	Risk Assessments From Exposure to Hazardous Chemicals at Hanford Site—Large Evolutionary Light Water Reactor.....	M-209
Table M.3.4–69	Risk Assessments From Exposure to Hazardous Chemicals at Nevada Test Site—Large Evolutionary Light Water Reactor.....	M-210
Table M.3.4–70	Risk Assessments From Exposure to Hazardous Chemicals at Idaho National Engineering Laboratory—Large Evolutionary Light Water Reactor	M-211
Table M.3.4–71	Risk Assessments From Exposure to Hazardous Chemicals at Pantex Plant—Large Evolutionary Light Water Reactor.....	M-212
Table M.3.4–72	Risk Assessments From Exposure to Hazardous Chemicals at Oak Ridge Reservation—Large Evolutionary Light Water Reactor.....	M-213
Table M.3.4–73	Risk Assessments From Exposure to Hazardous Chemicals at Savannah River Site—Large Evolutionary Light Water Reactor.....	M-214
Table M.3.4–74	Risk Assessments From Exposure to Hazardous Chemicals at Hanford Site—Small Evolutionary Light Water Reactor.....	M-215
Table M.3.4–75	Risk Assessments From Exposure to Hazardous Chemicals at Nevada Test Site—Small Evolutionary Light Water Reactor.....	M-216
Table M.3.4–76	Risk Assessments From Exposure to Hazardous Chemicals at Idaho National Engineering Laboratory—Small Evolutionary Light Water Reactor	M-217
Table M.3.4–77	Risk Assessments From Exposure to Hazardous Chemicals at Pantex Plant—Small Evolutionary Light Water Reactor.....	M-218
Table M.3.4–78	Risk Assessments From Exposure to Hazardous Chemicals at Oak Ridge Reservation—Small Evolutionary Light Water Reactor.....	M-219

Table M.3.4–79	Risk Assessments From Exposure to Hazardous Chemicals at Savannah River Site—Small Evolutionary Light Water Reactor.....	M–220
Table M.5.1.3.4–1	Isotopic Distribution for a Mixed Plutonium Release.....	M–257
Table M.5.1.3.4–2	Isotopic Distribution for a Weapons-Grade Plutonium Release	M–257
Table M.5.1.3.4–3	Isotopic Distribution for a Non-Pit (Pu Conversion) Plutonium Release	M–257
Table M.5.2.1.1–1	Evaluation Basis Accident Scenarios for Consolidation Alternative	M–258
Table M.5.2.1.1–2	Beyond Evaluation Basis Accident Scenarios for Consolidation Alternative	M–258
Table M.5.2.1.1–3	Accident Scenario Descriptions for Consolidation and Collocation Facilities	M–259
Table M.5.2.1.1–4	Consolidation Alternative Evaluation Basis Accident Source Terms.....	M–260
Table M.5.2.1.1–5	Consolidation Alternative Beyond Evaluation Basis Accident Source Terms	M–261
Table M.5.2.1.2–1	Consolidation Alternative Accident Impacts at Hanford Site.....	M–262
Table M.5.2.1.2–2	Consolidation Alternative Accident Impacts at Nevada Test Site	M–263
Table M.5.2.1.2–3	Consolidation Alternative Accident Impacts at Idaho National Engineering Laboratory	M–264
Table M.5.2.1.2–4	Consolidation Alternative Accident Impacts at Pantex Plant	M–265
Table M.5.2.1.2–5	Consolidation Alternative Accident Impacts at Savannah River Site.....	M–266
Table M.5.2.2.1–1	Evaluation Basis Accident Scenarios for Collocation Alternative.....	M–267
Table M.5.2.2.1–2	Beyond Evaluation Basis Accident Scenarios for Collocation Alternative	M–268
Table M.5.2.2.1–3	Collocation Alternative Evaluation Basis Accident Source Terms	M–268
Table M.5.2.2.1–4	Collocation Alternative Beyond Evaluation Basis Accident Source Terms	M–269
Table M.5.2.2.2–1	Collocation Alternative Accident Impacts at Hanford Site.....	M–271
Table M.5.2.2.2–2	Collocation Alternative Accident Impacts at Nevada Test Site	M–272
Table M.5.2.2.2–3	Collocation Alternative Accident Impacts at Idaho National Engineering Laboratory	M–273
Table M.5.2.2.2–4	Collocation Alternative Accident Impacts at Pantex Plant	M–274
Table M.5.2.2.2–5	Collocation Alternative Accident Impacts at Oak Ridge Reservation.....	M–275
Table M.5.2.2.2–6	Collocation Alternative Accident Impacts at Savannah River Site.....	M–276
Table M.5.2.3–1	Upgrade Without Rocky Flats Environmental Technology Site Plutonium or Los Alamos National Laboratory Plutonium Subalternative Accident Impacts at Hanford Site	M–277
Table M.5.2.3–2	Upgrade With Rocky Flats Environmental Technology Site Plutonium and Los Alamos National Laboratory Plutonium Subalternative Accident Impacts at Hanford Site	M–278
Table M.5.2.4–1	Upgrade With Rocky Flats Environmental Technology Site Plutonium and Los Alamos National Laboratory Plutonium Subalternative Accident Impacts at Idaho National Engineering Laboratory	M–279
Table M.5.2.4.1–1	Evaluation Basis Accident Scenarios for Upgrade of Interim Storage Facilities at Idaho National Engineering Laboratory	M–280

Table M.5.2.4.1-2	Beyond Evaluation Basis Accident Scenarios for Upgrade of Interim Storage Facilities at Idaho National Engineering Laboratory	M-280
Table M.5.2.4.1-3	Evaluation Basis Accident Source Terms for Upgrade of Interim Storage Facilities at Idaho National Engineering Laboratory	M-280
Table M.5.2.4.1-4	Beyond Evaluation Basis Accident Source Terms for Upgrade of Interim Storage Facilities at Idaho National Engineering Laboratory	M-281
Table M.5.2.4.1-5	Accident Scenario Descriptions for Storage Facilities at Idaho National Engineering Laboratory	M-282
Table M.5.2.4.2-1	Accident Impacts for Upgrade of Existing Storage Facilities at Idaho National Engineering Laboratory	M-284
Table M.5.2.5.1-1	Evaluation Basis Accident Scenarios for Upgrade or Consolidation at Pantex Plant—Surplus Materials Storage Building	M-285
Table M.5.2.5.1-2	Beyond Evaluation Basis Accident Scenarios for Upgrade or Consolidation at Pantex Plant—Surplus Materials Storage Building	M-286
Table M.5.2.5.1-3	Evaluation Basis Accident Scenarios for Upgrade or Consolidation at Pantex Plant—Strategic Reserves Storage Building	M-286
Table M.5.2.5.1-4	Beyond Evaluation Basis Accident Scenarios for Upgrade or Consolidation at Pantex Plant—Strategic Reserves Storage Building	M-286
Table M.5.2.5.1-5	Evaluation Basis Accident Source Terms for Upgrade or Consolidation at Pantex Plant—Surplus Materials Storage Building	M-287
Table M.5.2.5.1-6	Beyond Evaluation Basis Accident Source Terms for Upgrade or Consolidation at Pantex Plant—Surplus Materials Storage Building	M-288
Table M.5.2.5.1-7	Evaluation Basis Accident Source Terms for Upgrade or Consolidation at Pantex Plant—Strategic Reserves Storage Building	M-289
Table M.5.2.5.1-8	Beyond Evaluation Basis Accident Source Terms for Upgrade or Consolidation at Pantex Plant—Strategic Reserves Storage Building	M-290
Table M.5.2.5.1-9	Accident Scenario Descriptions for Storage Facilities at Pantex Plant.....	M-291
Table M.5.2.5.2-1	Accident Impacts for Consolidation in the Surplus Materials Storage Building at Pantex Plant.....	M-293
Table M.5.2.5.2-2	Accident Impacts for Consolidation in the Strategic Reserves Storage Building at Pantex Plant.....	M-294
Table M.5.2.5.2-3	Upgrade With Rocky Flats Environmental Technology Site Plutonium Pits Subalternative (Preferred Alternative) Accident Impacts at Pantex Plant	M-295
Table M.5.2.7-1	Upgrade With Rocky Flats Environmental Technology Site Plutonium and Los Alamos National Laboratory Plutonium Subalternative Accident Impacts at Savannah River Site	M-297
Table M.5.2.7-2	Upgrade With Rocky Flats Environmental Technology Site Non-Pit Plutonium Subalternative (Preferred Alternative) Accident Impacts at Savannah River Site... M-298	
Table M.5.2.8.1-1	Evaluation Basis Accident Scenarios at Nevada Test Site for Plutonium Storage Facility—P-Tunnel.....	M-299
Table M.5.2.8.1-2	Beyond Evaluation Basis Accident Scenarios at Nevada Test Site for Plutonium Storage Facility—P-Tunnel.....	M-299

Table M.5.2.8.1-3	Evaluation Basis Accident Source Terms at Nevada Test Site for Plutonium and Highly Enriched Uranium Storage Facility—P-Tunnel	M-299
Table M.5.2.8.1-4	Beyond Evaluation Basis Accident Source Terms at Nevada Test Site for Plutonium and Highly Enriched Uranium Storage Facility—P-Tunnel	M-300
Table M.5.2.8.1-5	Accident Scenario Descriptions for Nevada Test Site for Plutonium Storage Facility—P-Tunnel.....	M-301
Table M.5.2.8.2-1	Plutonium and Highly Enriched Uranium Storage Facility Accident Impacts at Nevada Test Site—P-Tunnel	M-303
Table M.5.3.1.1-1	Evaluation Basis Accident Scenarios for the Pit Disassembly/Conversion Facility	M-304
Table M.5.3.1.1-2	Beyond Evaluation Basis Accident Scenarios for the Pit Disassembly/Conversion Facility.....	M-304
Table M.5.3.1.1-3	Pit Disassembly/Conversion Facility Criticality Source Terms.....	M-305
Table M.5.3.1.1-4	Pit Disassembly/Conversion Facility Evaluation Basis Accident Source Terms.....	M-305
Table M.5.3.1.1-5	Pit Disassembly/Conversion Facility Beyond Evaluation Basis Accident Source Terms.....	M-306
Table M.5.3.1.1-6	Accident Scenario Descriptions for the Pit Disassembly/Conversion Facility	M-307
Table M.5.3.1.2-1	Pit Disassembly/Conversion Facility Accident Impacts at Hanford Site.....	M-309
Table M.5.3.1.2-2	Pit Disassembly/Conversion Facility Accident Impacts at Nevada Test Site	M-310
Table M.5.3.1.2-3	Pit Disassembly/Conversion Facility Accident Impacts at Idaho National Engineering Laboratory.....	M-311
Table M.5.3.1.2-4	Pit Disassembly/Conversion Facility Accident Impacts at Pantex Plant	M-312
Table M.5.3.1.2-5	Pit Disassembly/Conversion Facility Accident Impacts at Oak Ridge Reservation	M-313
Table M.5.3.1.2-6	Pit Disassembly/Conversion Facility Accident Impacts at Savannah River Site.....	M-314
Table M.5.3.2.1-1	Evaluation Basis Accident Scenarios for the Mixed Oxide Fuel Fabrication Facility	M-315
Table M.5.3.2.1-2	Beyond Evaluation Basis Accident Scenarios for the Mixed Oxide Fuel Fabrication Facility	M-315
Table M.5.3.2.1-3	Mixed Oxide Fuel Fabrication Facility Criticality Source Terms.....	M-316
Table M.5.3.2.1-4	Mixed Oxide Fuel Fabrication Facility Evaluation Basis Accident Source Terms.....	M-316
Table M.5.3.2.1-5	Mixed Oxide Fuel Fabrication Facility Beyond Evaluation Basis Accident Source Terms.....	M-317
Table M.5.3.2.1-6	Accident Scenario Descriptions for the Mixed Oxide Fuel Fabrication Facility	M-318
Table M.5.3.2.2-1	Mixed Oxide Fuel Fabrication Facility Accident Impacts at Hanford Site.....	M-320
Table M.5.3.2.2-2	Mixed Oxide Fuel Fabrication Facility Accident Impacts at Nevada Test Site.....	M-321

Table M.5.3.2.2-3	Mixed Oxide Fuel Fabrication Facility Accident Impacts at Idaho National Engineering Laboratory.....	M-322
Table M.5.3.2.2-4	Mixed Oxide Fuel Fabrication Facility Accident Impacts at Pantex Plant	M-323
Table M.5.3.2.2-5	Mixed Oxide Fuel Fabrication Facility Accident Impacts at Oak Ridge Reservation.....	M-324
Table M.5.3.2.2-6	Mixed Oxide Fuel Fabrication Facility Accident Impacts at Savannah River Site.....	M-325
Table M.5.3.3.1-1	Evaluation Basis Accident Scenarios for Direct Disposition at the Deep Borehole Complex.....	M-327
Table M.5.3.3.1-2	Beyond Evaluation Basis Accident Scenarios for Direct Disposition at the Deep Borehole Complex	M-328
Table M.5.3.3.1-3	Direct Disposition at the Deep Borehole Complex Evaluation Basis Accident Source Terms.....	M-329
Table M.5.3.3.1-4	Direct Disposition at the Deep Borehole Complex Beyond Evaluation Basis Accident Source Terms	M-330
Table M.5.3.3.1-5	Accident Scenario Descriptions for Direct Disposition at the Deep Borehole Complex	M-331
Table M.5.3.3.2-1	Direct Disposition at the Deep Borehole Complex Accident Impacts Ranges at Generic Sites	M-333
Table M.5.3.4.1-1	Evaluation Basis Accident Scenarios for Immobilized Disposition at the Deep Borehole Complex	M-335
Table M.5.3.4.1-2	Beyond Evaluation Basis Accident Scenarios for Immobilized Disposition at the Deep Borehole Complex	M-336
Table M.5.3.4.1-3	Immobilized Disposition at the Deep Borehole Complex Evaluation Basis Accident Source Terms	M-337
Table M.5.3.4.1-4	Immobilized Disposition at the Deep Borehole Complex Beyond Evaluation Basis Accident Source Terms	M-339
Table M.5.3.4.1-5	Accident Scenario Descriptions for Immobilized Disposition at the Deep Borehole Complex	M-340
Table M.5.3.4.2-1	Immobilized Disposition at the Deep Borehole Complex Accident Impacts Ranges at Generic Site	M-342
Table M.5.3.5.1-1	Evaluation Basis Accident Scenarios for the Vitrification Alternative.....	M-344
Table M.5.3.5.1-2	Beyond Evaluation Basis Accident Scenarios for the Vitrification Alternative	M-345
